

What is DESICO?

DESICO is the world's first platform to issue and trade security tokens in full compliance with the law.

What problems does DESICO solve?

A lack of legal frameworks for the issuance of security ICOs

DESICO's solution: The DESICO platform will operate under the Law of Crowdfunding of the Republic of Lithuania, which allows ICOs to raise capital by issuing security tokens. Lithuania is a European Union member state, and part of the Eurozone. DESICO will also be fully supervised by the Bank of Lithuania, which is under the control of the European Central Bank.

A lack of post-ICO liquidity

DESICO's solution: DESICO will operate an exchange as a key part of its ecosystem. This exchange will provide immediate liquidity to any security tokens issued by any business listed on the DESICO platform. The exchange will be subject to the regulatory supervision of the Bank of Lithuania.

A lack of liquidity for ICOs in converting crypto assets to fiat currencies

DESICO's solution: DESICO will receive a European e-money licence, or have direct access to the services of an institution in possession of one. This will allow DESICO to execute payments and manage payment accounts. Therefore ICO-funded businesses using DESICO will be able to manage both their crypto and FIAT holdings. DESICO will also give them the opportunity to exchange their cryptocurrencies into FIAT as way of developing their business.

DESICO

DESICO's value proposition

For investors:

- ✓ Investor protection as in security investments
- ✓ Verification for legitimate security ICOs
- ✓ A user-friendly interface and investment tools
- ✓ Secondary security token market
- ✓ Free trading on the DESICO exchange when sufficient DESI Tokens are held
- ✓ Whale rights and discounts within the DESICO ecosystem
- ✓ Token rewards for the screening of security ICOs

For businesses:

- ✓ Fundraising with neither legal nor reputational risks
- ✓ An all-in-one, cost-saving marketplace
- ✓ A secure and fully legally compliant ICO process
- ✓ Access to a pool of investors via the DESICO platform
- ✓ Immediate liquidity plus no listing costs on the DESICO exchange

The purpose of the DESI Token

The DESI Token as a payment method:

- ✓ For any service provided by DESICO
- ✓ For fees to third-party service providers within the DESICO ecosystem

DESI Token privilege rights:

- ✓ To participate in the pre-sale of security ICOs launched with DESICO, and to receive bonuses
- ✓ To trade on the DESICO exchange free of charge if a sufficient amount of DESI Tokens are held
- ✓ To receive financial rewards for taking part in the screening of ICOs and bounty campaigns

Why will DESICO succeed?

A team of internationally-experienced professionals from the fields of fintech, banking, finance, legal, tech, plus public relations and marketing

Full legal compliance with EU member state law
